COMMITTEE CALLS OFF THE BIG STRIKE

**Workingmen in Russia Will Re-
turn to Their Places.**

TROUBLE IN FORMING CABINET

**Count Witte the New Premier, Meets
With Opposition—Censorship of the
Press is Raised—Claimed that Re-
actionaries Have Been Instigators.**

St. Petersburg, Nov. 4.—The decisions of the strike committee to call off the strike was greeted with joy by all classes of the population as the absence of newspapers, electric light and other conveniences of life is severely felt. The railroad men, however, have resolved to continue the strike, which entails a continuance of the high price of provisions.

A great demonstration is promised for Sunday, when the bodies of the victims of the conflicts of Tuesday will be interred. The strike committee sent a deputation to Count Witte today and informed him that the workmen would preserve order at the funerals.

The amnesty manifesto did not appear this morning and the radicals are impatiently demanding the immediate release of political prisoners. The censorship throughout Russia, however, was abolished today not only the newspapers but also in the case of private telegrams. The minister of the interior has notified the editors that the regulations for the control of the press are no longer in force, Count Witte is having trouble in forming a cabinet on account of the lack of liberal support. Senator Koni has refused the portfolio of justice and Prince Troubetzkoy, brother of the late rector of the Moscow university is said to have not even replied to the tender of the ministry of education.

All the regulations heretofore issued to newspapers by circular for their government has been withdrawn and the chief of the press administration has been prohibited from further issuing such regulations.

Another appeal to the people in the shape of an official note was published this morning. It says:

"After the manifesto of Oct. 30 had laid a foundation for the development of Russian life on the basis of legality and justice, participation in street demonstrations have a significance altogether different from that attaching heretofore previously. It can only discourage disorder and the presence of the public of the middle and lower educational establishments among the demonstrators is much to be condemned if only on moral grounds. Unless the attention of society be now directed to this fact that the state is threatened with dangerous increase in the number of people whose respect for authority and order is being radically shaken while they are still in the school room. The government therefore calls upon all citizens to exercise self-control and to devote themselves quietly to their vocations."

Demand Release of Prisoners.

Koseloff, Russia, Nov. 4.—The vice governor of Koseloff has fled from the city. The citizens are preserving order. Great manifestations occurred here yesterday, the crowds demanding the release of the political prisoners.

Reactionaries Cause Trouble.

New York, Nov. 4.—A cable dispatch to the Times from Berlin says: "A private telegram from St. Petersburg says it is absolutely certain and can be proved that the reactionaries under the leadership of General Trepoff, have been fomenting disorders all

throughout Russia in order to counteract the efforts of the revolutionists. The reactionaries, it is asserted, have sent agents, provocateurs, to various cities in order to create a condition of anarchy and compel the czar to take military measures in order to counteract the efforts of the revolutionists."

Rioting Continues at Odessa.

Odessa, Nov. 3.—12:42 p. m.—After a fairly quiet night, shooting again commenced this morning. The Red Cross is busy attending the wounded. Up to the present time no houses have been touched. The principal hotels are full of the better classes of Jews seeking refuge from this week's disorders.

There was a veritable reign of terror on Oct. 31. After the emperor's manifesto granting a constitution to Russia had been published, the Jews made the Russians furious with rage by making a prominent display of red flags, tramping on a portrait of the emperor and bearing down the emblem of the crown. Late in the afternoon there was firing in the outskirts of the town and the massacre of Jews commenced and lasted during the night of Nov. 1. All Jews in the streets were severely beaten and many were killed in their shops, which were ruthlessly pillaged. In the poorer Jewish quarters on the outskirts of the town the whole streets were destroyed, the soldiers apparently looking on.

Crowds of workmen, rowdies, women and children laden with all kinds of loot walked openly through the streets quarreling over their spoils.

Bombs were thrown in various parts of the town. Late that night patrols of soldiers and Cossacks restored some semblance of order.

The pillaging was continued yesterday and there was heavy firing all over the town. Nobody was safe in the streets. People carrying arms, who were caught by the troops were shot at sight. The shutters of all houses were ordered closed, and people detected shooting from windows were promptly shot.

The soldiers used machine guns to move the crowd from the vicinity of the port. In fact, there was indiscriminate shooting everywhere in the town.

Firing is still going on as this dispatch is filed. Trade is at a complete standstill. Provisions are still obtainable at greatly enhanced prices.

The gas and water works are working. It is impossible to make a correct estimate of the number of killed and wounded. Similar reports reach Odessa from most of the other towns in South Russia.

Valuations Are Increased.

Montgomery, Ala., Nov. 4.—In his report to the governor Commissioner Harvey Jones shows collections through his department for the year ended Sept. 30, last, of \$245,160, the state getting of that \$133,753 and the counties the balance. The valuations by the commissioners since the law went into effect in 1897 has been \$87,152,052.

Woman Charged with Manslaughter.

Pensacola, Fla., Nov. 4.—A coroner's jury last night returned a verdict against Mrs. F. M. Turner, charging her with manslaughter. She shot and killed her husband yesterday at their home after he had abused her. Turner was one of the guards of the state board of health. Mrs. Turner claims she thought the revolver was unloaded.

Killed by a Runaway Horse.

Waynesboro, Ga., Nov. 4.—Warren Colson, the 12-year-old son of Mrs. Hammond Colson, of Waynesboro, was run over and killed by a runaway horse here. The horse became frightened at an automobile and the wheel of the buggy struck young Colson knocking out his brains.

POLICE ARREST TWO MEN FOR MURDER

**One Confesses to Disposing of
Body in Dress Suit Case.**

CLEARING UP THE MYSTERY

**Officials Believe They Now Have Un-
raveled the Mystery of the Death of
the Young Actress in Boston—This
Case Has Attracted Much Attention.**

Boston, Nov. 4.—With the arrest of William Howard and Lewis Crawford, in New York city, in connection with the Winthrop suit case mystery, the activities of the local police were transferred from Boston to the Metropolis. Chief William Watts, of the bureau of criminal investigation and superintendent of police, Mr. Pierce, with Pawnbroker Berkman, who sold the suit cases in which the dismembered parts of the victim's body was found in Boston harbor, Timothy Howard, the cabman, who drove two men carrying suit cases to the ferry, and other witnesses, all had gone to New York on the midnight train to be present today at the examination of Howard and Crawford.

The condition of Morris Nathan, suitor of Susanna Geary, the victim of the tragedy, was better today than yesterday, and he seems to be gaining strength.

Men Held in New York.

New York, Nov. 4.—Superintendent Pierce, of the Boston police, and Chief Watts, of the Massachusetts police, arrived at police headquarters today the prisoners were brought out for inspection. Chief Watts recognized Crawford and said:

"I feel sure that Crawford is the head man in this case. He was the principal at the house of Dr. Bishop, and it was through him, I believe, that Howard or Hunt, as he calls himself, was brought into the case."

Chief Watts said that the case against those who caused the death of Miss Geary was practically closed now, but there will probably be other arrests within a few days.

Crawford was dressed by order of the New York police in gray clothing when first seen by the Boston police officials, and their witnesses. He had on the same clothing he is believed to have worn in Boston while making his alleged trip with the suit cases to Boston harbor. In his room at 72 West Eighty-ninth street the police found a gray suit and a long state colored rain coat, both of which resembled the clothing that Cabman Howard said the man wore when he drove from Boston to Chelsea.

When the cab driver saw Crawford, he immediately identified him as one of the two men who were in his cab with suit cases on the night when the girl's body was thrown into the harbor. He also identified the prisoner Howard as Crawford's companion that night.

After this identification had been completed the two pawnbrokers and the pawnbroker's clerk were admitted to the prisoner's presence and identified them both. Meyer Kaufman, the clerk, said that Crawford, when he entered the pawnbroker's store to get a dress suit case, said he had 25 pounds of shot in the satchel he was carrying. The New York police announced after these identifications that Crawford, who was reticent when arrested last night, said that he was one of the men who helped to dispose of the body.

The prisoners were arraigned in the Tombs court and were remanded back to the police headquarters until Monday. There was no examination in the court. The men were arrested on affidavits charging conspiracy based primarily on Howard's confession.

Police Captain Doran today obtained warrants for the arrest of Crawford and Howard on the charge of committing an abortion on the body of Susanna Geary. A warrant also was issued against Howard charging him with being an accessory to the fact. The warrants will be taken before the grand jury of Suffolk county which convenes next Monday, and indictments will be asked for.

Important Address Is Found.

Waltham, Mass., Nov. 4.—May Tennen, of this city, the young woman whose name was found on an envelope in the pocket of Louis Crawford, one of the men arrested in New York in connection with the Boston dress suit case tragedy, is related to Mrs. Dr. Jane Bishop, formerly proprietor of a medical office on the Tremont street in Boston. This office which, until recently has been conducted in Dr. Bishop's name, is the place where Susan Geary was supposed to have gone for treatment. Miss Tennen has not been in Waltham recently. Crawford's wife is a daughter of Dr. Bishop.

MILLIONAIRE IS A PENSIONER.

**Only Accepts Money to Perfect His
Record as a Brave Warrior.**

Washington, Nov. 4.—Pensions for millionaires is one of the new developments under the executive order of last year.

According to Commissioner of Pensions Warner, the application of a millionaire for a pension has been recently favorably passed upon. He did not want the pension, according to the commissioner on account of the money it carried with it, but simply to perfect his record of honorable service in the civil war. This view of the disability order is being taken by many well to do veterans who would not otherwise apply for pensions. The fact that they are eligible and performed the service stipulated in the behalf of the government and that the government is to recognize this service by a pension and the accompanying records of the same make the service pension a desirable addition to the family records.

The commissioner does not look upon this class of pensioners as an undesirable burden for the government to bear. He takes the view that the funds distributed is used by the applicant to relieve want. In the case of the millionaire pensioners, he has knowledge that the recipient has just made a bequest of a hundred thousand dollars for benevolent purposes.

CANNOT AID WHALING VESSELS.

**Government Believes It Impossible for
Help to Reach Them.**

Seattle, Wash., Nov. 4.—Charles D. Jarvis, who commanded the relief expedition sent out by the United States government in 1897 to aid the stricken whalers, stated today that if the whaling fleet now ice bound in the Arctic ocean was far off Point Barrow, it would be almost impossible for a relief expedition to afford them any material aid, as the difficulties of Arctic travel in the winter were such that it would be almost impossible to take sufficient food to aid so many men.

Captain Jarvis states, however, that if the men can reach Point Barrow there is hope that with the aid of the natives, they may be able to survive the winter. Captain Jarvis is still hopeful, however, that the fleet will escape before the severe freeze up this winter.

Believe Woman Was Murdered.

New York, Nov. 4.—Coroner Scholer, following an autopsy on the body of Mrs. Marguerite Todd, the rich woman who was found dead on the Reading railroad tracks near Philadelphia a week ago, today said that the woman could not possibly have been struck by a train. He said he could easily have been killed by some heavy weight falling on her while she was inert, or by the pressure of a knee. The autopsy showed that several ribs had been fractured prior to the breastbone. Her clothing, the coroner said, was not disarranged in the slightest, but was smooth and neat. Had a train struck her, the coroner said, the clothing, of course, would have been disarranged and torn.

Will Discuss on the Tariff

Denver, Nov. 4.—The directors of the chamber of commerce last night voted to send a letter to the chamber of commerce throughout the west and middle west invited them to send representatives to a convention to discuss the proposed on the part of the national government to remove the tariff upon sugar coming from the Philippines to Manila. The letter in part is as follows:

ONLY FEW CASES UNDER TREATMENT

**There Has Not Been 450 Deaths
During Epidemic.**

SILVER SERVICE FOR DR. WHITE.

**Alabama Likely to Raise Quarantine
in a Few Days—Increased Business
Activity Is Noticed All Over the
Stricken Section.**

New Orleans, Nov. 4.—The fever situation here continues its rapid improvement, the cases under treatment now being reduced to 17. With so few cases remaining and virtually no new cases appearing, the probability is that there will be very few more deaths before it is finally declared that the epidemic is over.

The total of deaths has not yet reached 450 from July until the present date.

With the ordering away of more of the federal commissioned officers there are left here only the four men who are assigned to the district headquarters, and those immediately connected with Dr. White's department. There promises to be a further consolidation of the ward work by the end of the week. Not improbably the details of health work will be re-transferred to the city board of health next week.

Dr. White has not yet received his official assignment by Surgeon General Wyman to attend the Chattanooga convention, but it is now daily expected.

Governor Blanchard is especially anxious that Dr. White shall go to Chattanooga, and it has been indicated that the federal authorities also desire him to go.

Dr. White was last night the guest at a banquet given by the railroad men and was presented with a handsome silver service in recognition of the work he has performed here.

The death of an Italian woman and baby in DeRider, Calcasieu parish, has aroused the suspicion that they were victims of yellow fever, and at the request of the health authorities there Dr. Brady has been despatched by the state board of health to the scene to look into the matter.

The raising of the Alabama quarantine is said to depend on the conditions at Moss Point and Saranton, which is between New Orleans and Mobile. Considerable sickness was reported there during the summer, but the authorities denied that it was yellow fever.

Efforts are being made to arrange for an inspection of the situation by Dr. White, and the Alabama authorities, and if it found that these points are not infected, there is hope that Alabama will raise the bars against Louisiana and Mississippi.

Superintendent Marshall, of the L. & N. railroad, has written a letter to Governor Vardaman, heartily praising the work of the Mississippi militia who served as quarantine guards along the lines of that road. Mr. Marshall says the experience of the summer proved that the use of military guards for quarantine purposes has decided advantages over the employment of civilians.

Heavy demands are being made on the Southern Pacific for freight cars now that all the quarantines along its route in Louisiana have been lifted.

Up to noon today there were no new cases of yellow fever and no deaths reported.

New Railroad for Birmingham.

Chicago, Nov. 4.—Official announcement was made by the Illinois Central Railroad company of its intention to build a line from Jackson, Tenn., to Birmingham, Ala., a distance of 45 miles.

In League With Swindlers

Macon, Ga., Nov. 4.—W. D. Stevens is held in custody of the federal authorities here as a great goods man connected with New York swindlers and by whom extensive work is said to have been done in Georgia through fraudulent use of the mails. Deputy Frank Riley arrested him near Wadley, Ga., today on a warrant issued last August. Stevens was with a party of

trial before United States Commissioner Erwin tomorrow to connect Stevens with several schemes of the great goods order. He was formerly postmaster at Greenway, Ga., and since that office was robbed three months ago, he has been out. He is accused of representing the New York people as agents by putting them out to pasture who could be caught.

OLD PEOPLE CONSTANT SUFFERERS IN WINTER

Most old people are great sufferers in Winter. They are seldom free from pains or ailments of some description, because they are not as able to withstand the severity of the climate, with its damp, changing weather, as are their younger, more vigorous companions. Cold weather starts the old aches and pains; they suffer with chilly sensations, cold extremities, poor appetite and digestion, nervousness, sleeplessness and other afflictions peculiar to old age. With advancing years the strength and vitality of the system begin to decline. The heart action is weak and irregular, the blood becomes thin and sluggish in its circulation, and often some old blood taint that has lain dormant in the system for years begins to manifest itself. A wart or pimple becomes a troublesome sore or ulcer, skin diseases break out, or the slight rheumatic pains felt in younger days now cause sleepless nights and hours of agony. There is no reason why old age should not be healthy and free from disease if the blood is kept pure and the system strong, and this can be done with S. S. S. It is a medicine that is especially adapted to old people, because it is made entirely of roots, herbs and barks, selected for their purifying, healing and building-up properties, and is very mild and gentle in its action. S. S. S. warms and reinvigorates the sluggish blood so that it moves with more rapidity, and clears it of all impurities and poisons. As this rich, healthy stream circulates through the body every part of the system is built up, the appetite and digestion improve, the heart action increases and the diseases and discomforts of old age pass away. S. S. S. cures Rheumatism, Catarrh, Skin Diseases, Sores and Ulcers, and all troubles arising from diseased blood.

An important and extensive real estate deal was consummated at Rochelle Saturday, when the naval stores interests of W. H. Pope were transferred to Knight & Williams of Ocala, who are already among the largest and most successful operators in Marion county.

It is regarded as one of the best naval stores properties in this section, and while the price is not known, it is safe to assume that it brought a good figure.

Knight & Williams, the new owners, will take possession of the property at once, and the business will be continued unmolested.

IN MAYOR'S COURT.

Two Colored Damsels Paid Dearly For a Little Fun.

Mattie and Rosa Clark, two snuff-colored damsels of the African persuasion, were arraigned before Mayor Thomas upon a charge of using profane and abusive language, the specification being that they proceeded to "cuss out" and abuse one of their former female friends and companions. The defendants did not deny that they used language that might be construed as unbecoming a lady, but declared that they were "just teasing," and had used the same language, or something similar, directed at the same party before and nothing came of it.

"But perhaps you were all good friends then," suggested the mayor. "We sho' was," replied the Clark girls in chorus. "We aint on no bad terms now, only we jes' doan' speak 'cept we has ter."

"Well," remarked the mayor, with all the dignity of a circuit rider, "I dislike very much to see these matters come into court for a public airing, but I will be compelled to fine you \$2.50 each and costs for disturbing the peace."

Tom Jackson, it is said, tried to knock Jack Elliott down with a discarded ham bone, and was fined \$2.50 and costs upon a charge of disorderly conduct.

Harper & Chase Dissolved.

Harper & Chase, who have been engaged in business here for the past year representing the Cable Company, pianos and organs, have dissolved co-partnership, the same having already gone into effect.

A. R. Harper has accepted the agency of Ludden & Bates, while B. H. Chase will continue as the representative of the Cable Company. The change is in the opinion of these gentlemen best for both, and the dissolution was conducted on perfectly amicable plans. It was decided best for both, as both are good houses, and both will be represented by honest and conservative hustlers who will work along honest and conscientious lines.

Mr. Harper will remain in the quarters formerly occupied by Harper & Chase, West Main street, 8, while Mr. Chase will be located in the new Hill building, East Liberty street, opposite the office of the Gainesville Gas and Electric Power Company.

At the Tent Theater.
The O. W. Park Big Stock Company closed a week's engagement in this city Saturday night, presenting that thrilling story of Western frontier life, "Arizona."

As early as 8 o'clock there was hardly standing room in the big tent, which goes to show the popularity of this company here.

The play was presented in the same excellent manner which characterizes all the work of this excellent company, and all who attended were well pleased.

Mr. Park goes from here to Ocala. He will return to Gainesville after making a tour of the State, and it is needless to add that the company will be warmly received by theater-goers here.

UNIVERSITY DISCUSSION.

For the sake of getting its name before the people The Citizen-Reporter of Lake City hopes to be lifted out of its obscurity by attacking The Sun and the people of Gainesville regarding the motives of our people in securing the location of the University of Florida in this city. The paper says it is a "real estate scheme," and desires the names of the interested parties. As to the sum Gainesville will realize out of the "scheme" we publish a part of the statement of Chairman Bryan of the Board of Control, to show how much it cost the State:

"The statement that members of the Board of Control will begin the erection of buildings at Gainesville is correct. At a joint meeting of the State Board of Education and the Board of Control the funds available were apportioned according to the needs of the four institutions. The sum of \$75,000 was appropriated for the construction of buildings for the University at Gainesville. Of this amount public spirited citizens of Gainesville donated \$40,000 in cash and bought the old East Florida Seminary property from the State for \$30,000, which, in the opinion of the joint boards, was 50 percent more than it was worth, and besides donated a beautiful site containing 512 acres of land. So that of the appropriation made by the Legislature only \$5,000 will be used for University buildings."

Let the man of figures take his slat and pencil and figure out how much the State will lose by the transaction. Continuing, the statement of Chairman Bryan goes on to state:

"It is the expressed purpose of the board not to exceed the amounts appropriated by the State Board of Education and Board of Control in joint session in the erection of buildings at Gainesville, and if the article quoted from, as it seems a fair reading of it would lead one to believe, means that the Board of Control will begin the erection of buildings to cost \$1,500,000 before the Legislature of 1907 convenes, or if it means that the Legislature at its next session will be asked to make an appropriation of \$1,500,000, it has an exceedingly small foundation in fact. The Board of Control in August declined to accept a loan of \$100,000 tendered by Mayor Thomas of Gainesville and others.

"It is our purpose to stay within the appropriation, and how it could be gathered from anything that was said at the meeting of the board that an expenditure of this amount was contemplated I cannot conceive."

The land on which the University is to be located does not cost the State one farthing. Gainesville has paid the State for the old buildings it owned; has made a present to the State of \$40,000 in cash, and proffered a loan of \$100,000 to go ahead with the work.

As to the mercenary motives of those engaged in securing the University in Gainesville, the proposition is too silly for a person possessing a spoonful of gray matter in the top of his cranium to propound. The statement that the location of the University in Gainesville would enhance the value of property is a fact. The people of Gainesville expected when they secured the site for this institution of learning in our midst that it would be

so conducted as to prove worthy of the good people of our city and the State as well, and not a menace to the State as has been stated of its past record by a member of the Board of Trustees.

The idea was to have an institution in Gainesville that would induce people to come here to reside that their children might receive a thorough education, and as they must have homes in which to live, it would naturally enhance the value of real estate; and as the property in the immediate vicinity of the new University grounds would be most desired, on account of the moral and educational atmosphere of that locality, the owners must either refuse to sell or enter into "a real estate scheme."

The Buckman bill has made our public school the best it ever was, and the Buckman bill, with the wise judgment of the State Board of Educational Control, will make the State University located at Gainesville the best in the South. It is needless to waste time or space in The Sun to set forth the advantages of Gainesville—in every way superior as a city for a refined educational center. We will save our pearls.

But since our interrogator has proven himself so apt in asking questions, we wonder if he can answer a few as well:

When the Buckman bill came up in the Legislature, how much did Lake City do to aid the measure?

How much did the men who pushed the measure expect to realize out of the new University under the Buckman bill located at Lake City?

How much do the promoters of the measure claim Lake City has lost by failing to secure the new University in that city?

Was the University ever a success as an educational institution at Lake City?

Was the value of the real estate purchased at that point enhanced in the least when the State purchased the land at an exorbitant price?

To ease the top-piece of the inquisitive editor at Lake City, we will state that the University has as fine a site as could be found in Florida without money and without price, and if any people desire to locate in Gainesville for the purpose of educating their children—preferring a healthy location and good schools, that is a legitimate transaction of their own—should they buy real estate, and, judging from the lively movements along this line, it would be a hard matter to stem the tide at the present time.

Gainesville will always be known as an educational center, a city of business men, and you cannot deprive them of legitimate business methods or down "the Gainesville spirit."

SUNSTROKES.

The stores being kept open in the evening makes the streets have a more cheerful appearance, even if the clerks do wear a frown.

"What's your business?" he asked. "Trying to save enough money during the month to meet my obligations the first of the next one," was the reply.

"Do you drink coffee?" a lady asked a gentleman whom her husband had invited to dinner. "No mam, I board," was the response.

It is very easy to give way to temptation, but it takes a man of some stamina to say no, when he is being tempted.

There will be more sunshine in Florida this winter than usual according to all the signs of the times. This will be good news to Northern visitors.

Throw a bunch of thistles down to the editor of The Citizen-Reporter at Lake City, and see if that will not quiet him.

A new weekly paper will make its appearance at St. Augustine on or about November 17th. The St. Augustine Meteor is the name of the new aspirant for public honors, and Senator E. W. Zim of that city will be the man at the wheel. Senator Zim is a man of sterling worth and his prospectus announces that "The Meteor will reflect pure and undefiled Democratic doctrine and will ever menace antagonism of whatever character to a government—National, State or Municipal—of, for and by the people." Those who are acquainted with Senator Zim will know that they "have nothing to fear for its uprightness and honesty in dealing with men and measures."

SOFTNESS OF SEALSKIN.

Is Rivalled by Human Hair Where Dandruff is Eradicated.

Sealskin is admired the world over for its softness and glossiness; and yet the human hair is equally as soft and glossy when healthy; and the radical cause of all hair trouble is dandruff, which is caused by a pestiferous parasite that saps the vitality of the hair at its root. Newbro's Herpicide is the only preparation that is fatal to the dandruff germ. Without dandruff there is no falling hair, but a luxuriant growth of glossy, soft hair is certain. Scouring the scalp won't cure dandruff. Kill the dandruff germ. Thousands of women owe their beautiful suits of hair to Newbro's Herpicide. Sold by leading druggists. MOZLEY'S LEMON ELIXIR

REGULATES THE LIVER, STOMACH, BOWELS, KIDNEYS.

The inventor of the famous "TERRELL SCRAPE," a man known wherever plows are sold and used, says:

"I have used MOZLEY'S LEMON ELIXIR for 10 or 12 years in my family for the stomach, liver and kidneys, and find it is the best medicine I have ever used. It is also a sure specific for pain in the back or under the shoulders. I have recommended it in numerous cases to my workmen, when sick and unable to work, and it has always given perfect satisfaction. H. D. TERRELL, President Atlanta Plow Co., Atlanta."

No Poison in Chamberlain's Cough Remedy.

From Napier (New Zealand) Herald: Two years ago the Pharmacy Board of New South Wales, Australia, had an analysis made of all the cough medicines that were sold in that market. Out of the entire list they found only one that they declared was entirely free from all poisons. This exception was Chamberlain's Cough Remedy, made by the Chamberlain Medicine Company, Des Moines, Iowa, U. S. A. The absence of all narcotics makes this remedy the safest and best that can be had; and it is with a feeling of security that any mother can give it to her little ones. Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, croup and whooping cough. This remedy is for sale by all druggists.

Another Indiana Bank Robbed. Washington, Ind., Nov. 4.—Four cracksmen, probably the same men that robbed the bank at Sanborn on Wednesday night, visited the Odon bank, 15 miles east of Sanborn last night and were only frustrated in securing \$6,000 in cash by the nitro-glycerine blowing open the bottom of the safe before the doors were forced open. Jacob Hodge, aged 40 years, came by the bank at the time the cracksmen were at work, and was seized, bound hands and feet and gagged and guarded by an armed man until the robbers fled from the city. Hodge says the men were not masked and that they were strangers to him.

Child Burned to Death. Macon, Ga., Nov. 4.—Death came to little Emory Oliphant, the 4-year-old son of Homer Oliphant as a result of terrible burns sustained Thursday. He played in the fire of a grate after his mother had left the room and when she was attracted by his screams she met him enveloped in flames. The mother's desperate fight to save her child proved in vain and death resulted this morning.

Best Liniment on Earth. Henry D. Baldwin, Superintendent City Waterworks, Shullsburg, Wis., writes: "I have tried many kinds of liniments, but I have never received much benefit until I used Ballard's Snow Liniment for rheumatism and pains. I think it is the best liniment on earth." 25c, 50c and \$1. Sold by W. W. Johnson.

WOMAN DASHED TO DEATH.

Entangled in Ropes of Balloon and Fell as It Went Up.

Anderson, S. C., Nov. 4.—Mrs. Maude Broadwick, wife of Charles Broadwick, an aeronaut with Riddler's Southern Carnival company, fell from a balloon here and was instantly killed.

Mrs. Broadwick was an experienced balloonist herself and made two ascensions while here, but was not to go up this afternoon. Her husband was to make the ascension and parachute drop, and she was standing by to give the signal to cut the ropes when all was ready.

She gave the signal all right, and when the balloon shot up into the air she was seen hanging to the ropes between the balloon and the parachute. After she had reached a distance of 200 or 300 feet she dropped to the earth striking on the hard ground, and was instantly killed. The balloon went straight up into the air and she fell within a few feet of the spot where ascended. About 1,000 people witnessed the tragedy.

Broadwick, who was fastened into the parachute with a belt, went up some distance higher and then cut loose and descended in safety.

Most of the carnival people are inclined to the opinion that Mrs. Broadwick's death was due to suicide rather than an accident. They say Broadwick and his wife had been quarrelling for a week or more, and this, together with the fact that she was an experienced aeronaut, and there were no projecting ropes about the balloon harness liable to entangle a person, lead them to the suicide theory.

His mother's death was a sad loss for Mr. Reid, but he learned that lung trouble must not be neglected, and how to cure it. Quickest relief and cure for coughs and colds. Green Goods" Man Captured. New York, Nov. 4.—Disguised as a southern farmer, a postoffice inspector arrested on a charge of fraudulent use of the United States mails. Charles Barry, said by the government authorities to be an old-time "green goods" man, Barry was arrested on a similar charge a few months ago and was only recently released on \$3,500 bail. When arraigned on the second charge today he was remanded in default of \$10,000 bail. Some time ago J. H. Gardner, a well-to-do citizen of Dalton, Ga., received a "green goods" circular which he turned over to the postmaster. The matter was taken up here and arrangements made for the disguised inspector to meet the man who mailed the circular. The inspector was surprised to find at the appointed place Barry, the man he had himself arrested such a short time ago, and who already was waiting trial in a "green goods" case.

OUR NEW YORK WEEKLY LETTER

The Feather Boa the Craze of the Hour. Lillian Russell's \$2,000 Gown—Fashionable Fabrics For Various Purposes. Covert Cloth a Leader in This Season's Coats.

By RENE DEVERAUX.

That the queens of stageland are potent factors in creating and influencing the trend of fashion has been forcibly demonstrated within the last few weeks by the revival and resurrection of the picturesque ostrich feather boa. Since the opening night of Bernard Shaw's new play, "Man and Superman," in which the fascinating Ann exploits the charm of this alluring accessory, every woman in New York, it would seem, has determined that one of these treasures shall encircle her throat and ensnare her admirers. At any rate, there is now a veritable craze for these neckpieces—so much so, in fact, that the shops are well nigh unable to supply the demand. And, indeed, they are bewitching in their variety of soft, dainty colors, brought out in all lengths, from the short ones which merely tie at the throat to the longer ones which hang to the skirt of the frock.

With her famous \$2,000 gown, creating something of a sensation in New York this season, the popular Lillian Russell is wearing a light blue feather boa, exactly matching which is a fetching little feather muff with a blue aigret, directly on top. In theater boxes and fashionable restaurants feather boas fall from aristocratic shoulders or gracefully drape the backs of chairs, forcing one to acknowledge their picturesque charm.

So far every feature of fashion yet introduced emphasizes the effeminate

THE NEWEST CONCEIT IN FEATHER BOAS, WITH MUFF TO MATCH.

rather than the mannish. Smart fabrics in dress materials are smooth faced, soft and clinging. Broadcloths, lightweight and supple, grow in popularity for carriage and street wear. Soft French cashmeres in a variety of charming pastel shades are extensively used for house gowns and blouses, and old fashioned Henriettas and drap d'etes are brought out in a dozen or more different tones of plum and violet, together with the other popular colors.

One of the smartest fabrics for practical wear is a wide, heavyweight mohair, perhaps the most serviceable dress fabric made. These are woven in stripes, checks and plaids, many of them being exact copies of French and English suitings. An exceedingly durable mohair is thickly corded, which adds to its warmth and serviceability.

For reception and evening gowns chiffon velvet and chiffon cloths lead where handsome gowns are desired, and for less expensive toilets voiles and veillings are as much worn as ever.

For trimming cloth gowns embroidered and braids are elaborately employed, gold threads being thickly interspersed throughout. Among the smartest embroidered effects in gown trimmings are those formed of an applique of large petaloid flowers slightly padded to bring out the design. The centers of these flowers are embroidered in fine French knots, their stems being outlined upon the material of which the gown is made in heavy embroidery silk. Taffeta silk bands upon which similar designs have been applied come in wide and narrow widths.

A Typical Macy Bargain

buys this New York Model Fur Lined Coat. Guaranteed to be the best value of its kind ever offered. Every coat sold with the understanding that if not entirely satisfactory, upon return money will be refunded.

Last season the fur lined coat was quite the rage; we anticipated that this fall and winter season would find the fur lined coat more popular than heretofore, and therefore made arrangements whereby we could sell to our Mail Order patrons a fur lined coat at the unequalled price here quoted.

We have to offer 1,000 as illustrated. The coat is a loose double breasted model made of black, brown, red and green good quality broadcloth (samples sent upon request); is 44 inches long; has a deep shawl collar of sable coney; is lined with gray and white squirrel; full sleeves with turn back cuffs, satin lined; sizes, 36 to 42. This style coat is particularly well adapted for driving, outgiving and general wear.

The price we can guarantee only as long as the quantity we have on hand lasts, as it will not be possible to duplicate the coats at the original purchase price.

There is no need of wondering how such a splendid coat is sold at \$14.96—it is simply Macy's method that makes it possible.

Order at once and don't miss this bargain.

R. H. MACY & CO., NEW YORK
The Largest Dry Goods and Department Store in the United States

Nothing is prettier for trimming the bodice of a handsome cloth gown.

On the avenue natty little tan covert cloth coats are everywhere in evidence, some in short jackets, others in three-quarter lengths and still others reaching almost to the bottom of the skirt. A smart model this season is almost a counterpart of a man's spring overcoat. This style coat is loose back and front with turned down velvet collar of tan and finished with a double row of tan horn buttons.

Covert cloth coats in loose empire effects are a trifle more dressy than the one described above, gold bullet buttons and fancy collars trimming many of these.

Occasionally one sees a smart blue coat fastened with army buttons and finished with crimson cloth collar and cuffs.

Man's Unreasonableness

Is often as great as woman's. But Thos. S. Austin, manager of The Republican of Leavenworth, Ind., was not unreasonable, when he refused to allow the doctors to operate on his wife for female trouble. "Instead," he says, "we concluded to try Electric Bitters. My wife was then so sick she could hardly leave her bed, and five (5) physicians had failed to relieve her. After taking Electric Bitters she was perfectly cured, and can now perform all her household duties." Guaranteed by all druggists. Price 50c.

Champion Typewriter Contest.

New York, Nov. 4.—The contest for the typewriter championship of the United States was held in Madison Square Garden last night. There were 19 contestants. The winner of the first prize of \$100 was Paul Munter, of this city, who wrote 2,099 words in 30 minutes. Miss Rose Fritz, also of New York, won the second prize of \$50 with a record of 2,044 words in thirty minutes. Miss May Carrington, of the city of Springfield, Mass., was third, with a record of 2,044 words.

PRINCE LOUIS AT WASHINGTON.

British Admiral is Entertained Royal. ly at National Capital.

Washington, Nov. 4.—A reception by President Roosevelt at the White House, a dinner at the British embassy and a reception and dance at the British embassy, were features of today's program for the Prince Louis of Battemburg.

Greeted by the British ambassador and a small delegation of state and naval officials, Prince Louis arrived here in a special train over the Baltimore and Ohio railroad shortly before noon. He was driven to the British embassy for luncheon and in the afternoon was received formally and welcomed to the nation's capital by President Roosevelt.

Officials of this government and Ambassador Durand are planning to do the great honor on the occasion of his three days' visit here. While pains have been taken to give no official color to Prince Louis' visit to Washington, an impressive feature will be the presenting by the Prince of a letter of greeting from King Edward to President Roosevelt. While the prince was being entertained at luncheon by Sir Mortimer, the captains of his ships were entertained at luncheon at the Willard by the captains of the American squadron. While the dinner at the embassy was a brilliant affair, the reception and dance which followed was the smartest function seen in Washington in some time. Several hundred invitations were issued.

G. B. Burhans of Carlisle Center, N. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to anyone suffering from kidney or bladder trouble." JAPAN'S EMPEROR SATISFIED.

He So Expresses Himself at a Banquet in Honor of Birthday.

Tokio, Nov. 3.—2 p. m.—At a banquet given in honor of his birthday today the emperor expressed his satisfaction at the restoration of peace and toasted the sovereigns and rulers of the countries represented at his court. Baron d'Anethan, the Belgian minister, and dean of the diplomatic corps, replied to the toast.

In the course of his remarks he said: "The entire world experienced great joy and a feeling of genuine relief at the news of the completion of the war, and applauded the peace which was inspired by the loftiest sentiments of humanity and ads such a beautiful page to the glorious history of his majesty's reign."

To Inspect Gulf Coast.

Mobile, Ala., Nov. 4.—State Health Officer W. H. Sanders and State Supervisor of Health Dr. Charles A. Mohr left the city at noon today in a special train over the Louisville and Nashville road for a visit to the Mississippi coast for the purpose of looking into health conditions at Scranton, Ocean Springs, Biloxi, Gulfport, Mississippi City and other points.

The quarantine officials will return tonight. It is said that the trip is made with a view of raising the quarantine against the entire state. Before the state of Mississippi will withdraw its quarantine against New Orleans the Alabama authorities were furnished with a daily report of conditions, and now it has ceased, and it is expected the Alabama physicians want to thoroughly satisfy themselves.

WILL PUNISH PERPETRATORS.

Chinese Government Will Avenge Missionaries' Deaths.

Washington, Nov. 4.—Mr. Rockhill, minister at Peking, telegraphs the state department today that he has just been informed by the foreign office of an attack on the 28th of October by a mob upon the American Presbyterian mission station at Lieunchow, in the province of Canton, in which the mission was destroyed and five missionaries were killed.

Two missionaries, one by the name of Patterson, and the other having the Chinese name of Ming, escaped.

The emperor issued an edict ordering the viceroy of Canton to inflict exemplary punishment upon the perpetrators and all guilty officials, and directing compensation to be made, and adequate protection to be afforded for all missions.

Mr. Rockhill is informed that the attack resulted from the refusal of the missionaries to permit the firing of cannon by the village people during a festival. He expects further details from the foreign office.

Railroad Bridge Is Burned.

Charlotte, N. C., Nov. 4.—About 50 feet of the Southern railway's bridge over the Catawba river, 12 miles south of Charlotte, has been completely destroyed by fire. A freight train that approached the structure came very near plunging into the fiery mass, the engineer seeing the blaze just in time to save the train. All trains, both north and south, on the Southern railway have been delayed several hours on account of the fire.

Negro Is Killed at a Dance.

Birmingham, Ala., Nov. 4.—A special to the News from Huntsville says that five persons were shot, one being killed, at a negro dance at Chelsey, a negro village, near that city, at midnight last night. Sam Ruffin, a drunken negro, opened fire on a crowd of dancers. A daughter of Pelee Branch was instantly killed. Cliff Branch was fatally wounded, while two other women and a man were shot and are expected to die. Ruffin escaped.

Constipation.

Health is absolutely impossible if constipation be present. Many serious cases of liver and kidney complaint have sprung from neglected constipation. Such a deplorable condition is unnecessary. There is a cure for it. Herbine will speedily remedy matters. C. A. Lindsay, P. M., Bronson, Fla., writes, Feb. 12, 1902: "Having used Herbine, I find it a fine medicine for constipation." 50c a bottle. Sold by W. M. Johnson.

Financiers Arrive at Stockholm.

Stockholm, Nov. 4.—George W. Perkins, J. Pierpont Morgan, Jr., Mr. Baring and other financiers arrived here today from St. Petersburg on board the Russian steamer Ohonna. Mr. Morgan proceeded immediately to London. Mr. Perkins remains here until Saturday. Mr. Perkins said that when they succeeded in chartering the Ohonna at Helsingfors, the strikers tried to prevent the vessel from sailing for St. Petersburg. Her captain, however, succeeded in eluding them.

The Exact Thing Required for Constipation.

"As a certain purgative and stomach purifier Chamberlain's Stomach and Liver Tablets seem to be the exact thing required, strong enough for the most robust, yet mild enough and safe for children and without that terrible griping so common to most purgatives," says R. D. Webster & Co., Udora, Ontario, Canada. For sale by all druggists.

WARSHIP MODELS.

One Is Made For Each New Vessel That Uncle Sam Plans.

Whenever Uncle Sam plans a new warship a miniature copy of it is made in advance exactly like the great vessel in all respects, but only five to eight feet long. This is done in order to find out exactly what the battleship or cruiser will look like when it is finished, for if any change seems advisable the fact may thus be ascertained before it is too late.

The little vessels are built in what is called the ship house in the navy yard at Washington from the original plans and drawings for the cruiser or battleship. Every detail is reproduced on a scale of a quarter of an inch to the foot. They cost several thousand dollars apiece, and when they are finished they are gravely and anxiously inspected by a board of naval officers, who discuss them from every point of view, making criticisms and suggestions.

Every ship now in our navy has made its first appearance in this miniature shape. Even the guns, artistically carved out of wood, are represented, frowning from their ports, and all of the minor accessories down to the masts, masts, masts, skylights, steering wheels and even lanterns are reproduced in a metal composition called nickel silver. One man does all the work with the assistance of a couple of "down east whittlers."—New York Herald.

MIRABEAU AND DANTON.

Their Deaths Were Courageous, but Rather Too Theatrical.

Mirabeau and Danton between them tend to dwarf most of the other figures of the revolution. They belong to "colossal humanity," a fact which neither was slow to recognize or admit. We are here reminded of Mirabeau's boast to Frochet near the end of his life: "Yes, support this head, the greatest in France. I wish I could bequeath it to you." It may recall Danton's words to the headman: "Thou wilt show my head to the people. It is worth showing." Both died full of self-consciousness, Mirabeau with at least as keen an eye to effect as Mary, queen of Scots, herself. "My shade will soon be annihilation," exclaimed Danton at his trial, "but I shall live in the pantheon of history." "Have we Achilles' funeral already?" asked Mirabeau when from his deathbed he hears the sound of cannon. A "condemner of courageous deaths" could have no fault to find with Mirabeau or Danton on the score of cowardice, but they are rather too theatrical for English taste. We prefer the silent head shake of Marie Antoinette when she is asked if she has anything to say against the sentence of death passed upon her and her silence next day when she mounts the scaffold.—London Standard.

Amendment to the Golden Rule.
Brotherly love and charity do not consist so much in what you give as how little you take from your fellow man.—Medico-Pharmaceutical Journal.

Sluggish Liver a Foe to Ambition.

You cannot accomplish very much if your liver is inactive, as you feel dull, your eyes are heavy and slight exertion exhausts you. **Grain Laxative Fruit Syrup** stimulates the liver and bowels and makes you feel bright and active. **Grain Laxative Fruit Syrup** does not nauseate or grip and very pleasant to take. **Grain** is more effective than pills or ordinary cathartics. Refuse substitutes. **J. W. McCollum & Co.**
